PROFESSIONAL SUMMARY

MBA candidate (Business Analytics focus) at Illinois State University with analytical, organizational, and communication skills. Experience in data analysis, reporting, project coordination, and cross-functional collaboration across academic and business environments. Proficient in Microsoft Office, Excel, and Power BI. Ability to manage multiple tasks, collaborate with teams, and support organizational initiatives.

EDUCATION

Illinois State University

Master of Business Administration (STEM-Designated).

Two semesters, Aug '25 – May '26 | GPA: 3.667

Normal, Illinois

Expected May 2027

Bangladesh University of Professionals

Bachelor of Business Administration | GPA: 3.64

Dhaka, Bangladesh

TECHNICAL SKILLS

Tools: Excel, Word, PowerPoint, Canva, R, Power BI, familiar with SQL and Python

Core skills: Problem Solving, Multi-tasking, Attention to Detail, Adaptability & Learning

Analytics: Data Preparation, Statistical Modeling, Predictive Analytics, Time-Series Forecasting, Linear Programming.

Other skills: Data Entry & File Management, Report & Presentation Preparation, Meeting Coordination, Administrative Support.

WORK EXPERIENCE

Illinois State University – Department of Marketing — Normal, Illinois

Graduate Assistant | Aug 2025 – May 2026

- Met competing project deadlines through strong organization and attention to detail.
- Ensured timely course operations by supporting grading and exam proctoring.
- Improved research workflow efficiency by sourcing, organizing, and synthesizing scholarly articles for faculty.
- Enhanced accessibility for students requiring accommodation by aligning course content with ADA compliance standards.

Mousumi Agrovet Limited — Dhaka, Bangladesh

Interim Operations & Administrative Lead | Jun 2021 – Mar 2022

- Managed operations for 120+ employees, ensuring efficiency and compliance with safety and labor regulations
- Coordinated with financial institutions and regulators to support structured business wind-down
- Maintained operational continuity and minimized disruptions during transition period

Transcom Beverages Limited — Dhaka, Bangladesh

Sales & Marketing Intern | Feb 2020 – Mar 2020

- Analyzed sales data and key performance indicators to identify trends and support decision-making
- Facilitated coordination across sales, marketing, and HR teams

ADDITIONAL EXPERIENCE

Mentors' Education Limited — Dhaka, Bangladesh

Part-time Instructor (IELTS) | Jun 2023 – Jul 2025

- Analyzed student performance data across 400+ sessions to identify learning gaps and improve outcomes
- Tracked performance metrics to support instructional and course-level decisions
- Applied structured problem-solving approaches to enhance student success

PROJECTS

Exploratory Data Analysis & Data Preparation using R

- Performed data cleaning, transformation, and exploratory analysis on business datasets using R
- Handled missing values, outliers, and variable transformations to prepare data for analysis
- Generated summary statistics and visualizations to identify trends and support data-driven insights

Demand Forecasting & Error Analysis (Excel)

- Developed demand forecasting models using historical data and evaluated accuracy using error metrics
- *Proposed* inventory planning strategies to reduce waste and improve forecast reliability in dining operations

Inventory Optimization under Demand Uncertainty (Simulation-Based)

- Built a single-period inventory model to determine optimal order quantities under uncertain demand
- Analyzed trade-offs between stockouts and excess inventory to improve profitability and operational decisions

Service System Optimization for Coffee Shop Operations (Queueing Simulation)

- Simulated customer arrivals and service processes under different staffing configurations
- Evaluated wait times, throughput, and congestion to recommend cost-efficient staffing strategies

Optimization & Capacity Planning Model (Excel Solver)

- Developed linear programming models to optimize resource allocation under operational constraints
- Improved efficiency by identifying optimal production and capacity utilization strategies

CERTIFICATIONS & LEADERSHIP

Python for Everybody Specialization – Coursera (University of Michigan)

Data Analytics Courses – Coursera (UMich, Johns Hopkins, Google)

Aspire Leaders Program 2023 – Aspire Institute

Work Authorization: *F-1 Visa, eligible to work in the U.S. on CPT for internships (no sponsorship required).*
